SUMMARY

Full-Stack Developer with 6+ years of experience helping startups, eCommerce brands, and agencies bring their ideas to life using Laravel, React, Next.js, WordPress, and Shopify.

Comfortable owning a project end-to-end: understanding the goal, planning the build, and delivering something that feels effortless for the user and scalable for the business. Focused on clean code, strong performance, and real results over buzzwords.

Experience spans custom dashboards, REST API integrations, WordPress/Shopify builds, and Linux server administration — with an emphasis on site security, backups, and access management.
